**DATED; 05TH SEPTEMBER, 2007**

**P.C.;**

1. The controller of the rationing issued proclamation and invited applications for grant of licence to run ration shop. The petitioner being desirous of the same applied along with others. One of the applicants along with the present petitioner was respondent no.4. The respondent no.4's proposal for allotment of ration shop was found more meritorious as compared to that ofthe petitioner and thus respondent no.4 was alloted the ration shop. Aggrieved thereby the present petitioner preferred a revision. The revisional authority concurring with the view taken by the Controller of rationing, has dismissed the revision and confirmed the order passed by the Controller of rationing. Two authorities below

have considered the aspect of suitability of the premises for housing the ration shop. There is no reason to interfere with the said finding of fact. Hence writ petition is summarily dismissed.
